DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 6th June 1918.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

24-Parganas.

No. 1319M.—The 12th June 1918.—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make in supersession of the rules published under Notifications No. 1963M., dated the 10th December 1908, and No. 95T.M., dated the 30th April 1913, and subject to which the Commissioners of the Maniktola Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby.

2. The draft rules will be taken into consideration on the 20th July 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

DRAFT RULES.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 96, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:

Provided that no connection shall be allowed to holdings other than masonry buildings without the sanction of the Commissioners at a meeting:—

1. The owner or occupier of any holding requiring water to be laid or to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 2 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding must have a separate connection to the municipal main supply-pipe and extensions from the communication-pipe of one holding to another holding shall not be permitted :

Provided that with the consent of the Commissioners in meeting connections to two or more holdings may be permitted from a common

communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required, must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works, as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe;
(*b*) a galvanized iron communication-pipe from the ferrule to the meter;
(*c*) a stop-cock and its surface-box;
(*d*) a meter;
(*e*) service-pipes from the stop-cock to the taps; and
(*f*) taps.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding.			Sizes of ferrule.	Diameter of communication-pipe.	Number of taps.

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

14. (1) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled to a supply of—

(a) nine gallons of water per head per diem;

(b) three thousand and five hundred gallons of water per quarter for each rupee, and

(c) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

15. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely —

(a) if the holding is unoccupied;

(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection;

(c) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully injures or damages it;

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood;

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same;

(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorized by these rules;

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

16. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down". Every tap shall be at least 3 feet above the surface of the ground beneath.

17. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

RESOLUTION ON THE ANNUAL REPORT ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1917.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police Branch.

DARJEELING, THE 15TH JUNE 1918.

RESOLUTION—No. 1861P.J.

READ—

The Annual Report on the Police Administration of the Town of Calcutta and its Suburbs for the year 1917.

MR. R. CLARKE again held charge of the office of Commissioner of Police throughout the year, except for a period of two and-a-half months during which he was on leave and Mr. E. H. Corbett acted for him.

2. There were no important changes in the organisation of the force during the year, beyond an addition to the Detective Department made mainly in order to enable it to cope with commercial frauds and other specialised forms of crime, involving lengthy investigations with which the station staff are unable to deal without detriment to their ordinary duties. Additional launches are being constructed in connection with a scheme for the improvement of the river patrol system designed to check smuggling and the illicit importation of arms.

3. The difficulties in connection with the recruitment of the rank and file have increased, and the number of vacancies at the close of the year was 568, or more than 10 per cent. of the total sanctioned strength. Endeavours to obtain Bengali recruits for the Calcutta constabulary have failed, and Bihar and the United Provinces remain the chief sources of supply. The heavy drain on these areas during the last two years for men for the army and for labour corps, as was to be expected, has seriously interfered with police recruitment. The sanction of the Secretary of State has recently been obtained to a general increase of two rupees a month in the pay of the constables in the Calcutta Police, and this, it is hoped, will prevent any further depletion of the force, though it will probably be impossible to bring it up to full strength till after the end of the war.

4. It was impossible to do much during the year towards solving the difficulty of housing the police in Calcutta. The department urgently needs more buildings, and the existing arrangements under which most of the force are accommodated in unsuitable hired houses are not only inconvenient but also uneconomical. The yearly rent paid to private owners rose from Rs. 2,64,170 in 1916 to Rs. 2,83,178 in 1917, and must continue to rise with the value of house property in Calcutta. The Governor in Council awaits the submission of the building scheme which the Commissioner is drawing up.

5. Crime in the aggregate, including petty cases under all Acts, steadily increased, and the total number of true cognizable cases was 106,540, or 6,127 more than in the previous year. Serious offences against person and property were, however, fewer, and the main increase was in miscellaneous offences under the Calcutta and Suburban Police Acts and under the Cruelty to Animals Act, which together account for 84 per cent. of the total number of cases. Excise cases showed a further marked fall. The percentage of cases disposed of by Honorary Magistrates rose from 35 to 47. The number of cases committed to Courts of Session was considerably less than in 1915 and 1916, while the percentage of conviction was somewhat lower.

6. The number of juveniles convicted rose to 1,259, or 455 more than in the previous year. Of these 1,171 were tried in the House of Detention instead of in the ordinary courts. Only 19 were sentenced to imprisonment in the Juvenile Jail, while 24 were sent to reformatories. It is satisfactory to find that the courts tend to deal with youthful offenders more and more by warning and discharging them, or by binding them over as first offenders, and less by means of whipping or fining.

Two probation officers have been appointed to watch over youthful offenders after their release from the House of Detention. These officers supervised the conduct of 53 boys during the year and made enquiries regarding many more. Their work, if conscientiously performed, should prove valuable in assisting potential criminals to lead honest lives.

7. The courage and devotion to duty displayed by the officers of the Special Branch of the Calcutta Police and their close co-operation with the Intelligence Branch of the Bengal Police in the struggle with the revolutionary conspiracy have at last begun to bear fruit. Except for a robbery in January and a dacoity with murder in May, the city was free from revolutionary crime, and for the first time since 1912 no police officer was assassinated in Calcutta. There can be no doubt that this result is due largely to the preventive measures taken under the Defence of India Act and Regulation III of 1818. At the same time conspirators are still at work. The collections of weapons brought to light by the diligence of the police show what the nature of their activities would be, given the

opportunity, and are also evidence of the accuracy of the information which the police are able to obtain. In one house four live bombs were discovered as well as cartridges and seditious literature. On three occasions men were arrested while in possession of revolvers and ammunition, and in one case an endeavour was made to murder the officer who effected the arrest. In two more houses stores of ammunition were discovered.

8. The number of motor vehicles of all sorts running in Calcutta continues to increase, and their proper control is a matter of no small difficulty. No less than 1,032 persons were injured in street accidents during the year; the number of deaths was 54 as compared with 75 in 1916. Rashly-driven taxi-cabs in particular are a constant source of danger to the public. Deterrent sentences and the cancellation of misused licenses are the most effective means of dealing with the matter, and it is satisfactory that the number of cases sent up and the number of convictions were more than double those of the previous year. A proposal was made during the year by the Government of Bengal that the power of cancelling and suspending licenses should be given to the Commissioner of Police; the point has been reserved by the Government of India for consideration when the amendment of the Indian Motor Vehicles Act of 1914 is undertaken. Steps have been taken to check the use of excessively powerful and dazzling lights in the streets and to abate the nuisance caused by noisy mechanical horns and sirens.

9. An informal censorship of cinematograph films was introduced during the year and worked satisfactorily. A board of censors has been established for each separate management showing cinematograph films in Calcutta, and their supervision and advice have been cordially accepted by bioscope proprietors. The thanks of Government are due to the members of the boards for their valuable services.

10. The Calcutta Fire Brigade again rendered excellent service during the year. It was called out on 377 occasions, but the average loss per call was only Rs. 1,838 as compared with an average of Rs. 2,733 for the last five years. It is hoped that the efficiency of the Brigade will be still further increased by the improved scale of pay recently sanctioned.

11. The Governor in Council has read with pleasure the list of officers who have been commended by the Commissioner of Police for good work done during the year. The discipline of the force was satisfactory and the general standard of work was well maintained. The thanks of Government are specially due to Mr. Clarke for his efficient administration of the department.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division for information.

Ordered also that a copy of the Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered, also, that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

[7 & 8 GEO. 5, CH. 51.]

ARRANGEMENT OF SECTIONS.

CHAPTER 51.

AN ACT TO MAKE PROVISION FOR THE ESTABLISHMENT, ADMINISTRATION, AND DISCIPLINE OF AN AIR FORCE, THE ESTABLISHMENT OF AN AIR COUNCIL, AND FOR PURPOSES CONNECTED THEREWITH.

[29th November 1917.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

PART I.

ESTABLISHMENT OF AIR FORCE.

Raising and number of Air Force

1. It shall be lawful for His Majesty to raise and maintain a force to be called the Air Force, consisting of such number of officers, warrant officers, non-commissioned officers, and men as may from time to time be provided by Parliament.

Government, discipline, and pay of Air Force.

2. (*1*) Subject to the provisions of this Act it shall be lawful for His Majesty, by order signified under the hand of the Secretary of State, to make orders with respect to the government, discipline, pay, allowances, and pensions of the Air Force, and with respect to all other matters and things relating to the Air Force, including any matter by this Act authorised to be prescribed or expressed to be subject to orders or regulations.

(*2*) The said orders may provide for the formation of men of the Air Force into separate units and for the formation of such units into corps, and for appointing, transferring, or attaching men of the air force to units, and for posting, attaching, and otherwise dealing with such men within the units, and may regulate the appointment, rank, duties, and numbers of the officers and non-commissioned officers of the Air Force.

(*3*) Subject to the provisions of any such order, the Air Council hereinafter constituted may make general or special regulations with respect to any matter with respect to which His Majesty may make orders under this section:

Provided that the administration of pensions, other than service pensions within the meaning of the Ministry of Pensions Act, 1916, shall vest in the Minister of Pensions.

(*4*) All orders and general regulations made under this section shall be laid before Parliament as soon as may be after they are made.

Transfer and attaching to Air Force of members of Naval and Military Forces.

3. (*1*) Any officer, warrant officer, petty officer, non-commissioned officer, or man of any of His Majesty's naval or military forces may, with his consent and subject to the approval of the Admiralty or Army Council (as the case may be), be transferred by the Air Council to the Air Force, or attached by the Air Council to the Air Force for the period of the present war or for a period not exceeding four years:

Provided that—

(*a*) any officer, warrant officer, petty officer, non-commissioned officer, or man who at such date as may be fixed by Order in Council belongs or is attached to the Royal Naval Air Service, the Royal Flying Corps or any unit of the naval or military forces engaged in defence against aircraft which is designated by the Admiralty or Army Council for the purpose, may be so transferred or attached without his consent, but if any person so transferred or attached, within three months from the time when he receives notice of such transfer or attachment or such longer period as in any particular case the Air Council may allow, gives notice to his commanding officer that he does not desire to be so transferred or attached, the transfer or attachment shall be annulled without prejudice to the validity of anything which may have been done in the meanwhile; and

(*b*) no person transferred to the Air Force under the provisions of this section shall be liable to serve with the Air Force for any longer period than that for which he would have been liable to serve had he continued in the force from which he was transferred.

(2) Regulations made by the Air Council may provide that in the case of a person so transferred, the time during which he held a commission or served in the force from which he is transferred shall, for such purposes as may be prescribed, be aggregated with the time during which he holds a commission or serves in the Air Force, and that his entry into or enlistment in the force from which he is transferred shall, for such purposes as may be prescribed, be treated as enlistment into the Air Force.

(3) Where any person is transferred to the Air Force under this section, then for the purpose of pay, pensions, gratuity, and retired or half-pay, and of any decoration or reward dependent on length of service, any previous service with His Majesty's naval or military forces which would have counted as service towards pay, pension, gratuity, retired or half-pay, or such decoration or reward if he had not been so transferred, shall be deemed to be service with the Air Force towards pay, pension, gratuity, retired or half-pay, or such decoration or reward.

(4) Where any person is attached to the Air Force under this section, the fact that he is so attached shall not affect any right to any pay, pension, gratuity, retired or half-pay, or such decoration or reward as aforesaid, already earned by him in that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached, and the period during which he is so attached shall, for the purpose of any provisions relating to pay, pensions, gratuity, retired or half-pay, or such decoration or reward, be deemed to be service with that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached.

Rights of officers.

4. Officers in the Air Force shall enjoy all such powers, rights, immunities, and privileges as are enjoyed by commissioned officers of His Majesty's Navy or Army as such, whether conferred by Statute or otherwise, and the acceptance of a commission in the Air Force shall not render a person accepting such a commission incapable of being elected to or sitting or voting in the Commons House of Parliament, and nothing in the Succession to the Crown Act, 1707, or any similar enactment shall extend to any member of the Commons House of Parliament who, being an officer of the Air Force, receives any new or other commission in the Air Force, or receives a commission in His Majesty's Navy or Army, or who, being an officer in His Majesty's Navy or Army, receives a commission in the Air Force.

RESOLUTION ON THE TRIENNIAL REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1915-17.

GOVERNMENT OF BENGAL.

FINANCE DEPARTMENT.

Medical Branch.

CALCUTTA, THE 25TH JUNE 1918.

RESOLUTION—No. 1501Medl.

READ—

The Triennial Report on the Lunatic Asylums in Bengal for the years 1915-17.

READ ALSO—

The Annual Returns of the Lunatic Asylums in Bengal for 1915 and 1916, with remarks recorded thereon by the Surgeon-General with the Government of Bengal.

THE main problem which concerned the administration of the Lunatic Asylums in Bengal during the triennium was that of accommodation. As had been anticipated, the average number of inmates was greater than that of the previous triennial period, and the question of accommodation, even then difficult, became somewhat acute. Conditions arising out of the war had to some extent delayed the construction of the new asylums at Ranchi, which are intended for the reception of the bulk of the insanes of this Presidency, and temporary arrangements were therefore made in the asylums to provide for the increased numbers. Since the close of the year the European Asylum at Ranchi has been opened, and the inmates of the Bhowanipore Asylum have been transferred there. The construction of the Indian asylum at Ranchi is in progress, while the old asylum at Bhowanipore will shortly be converted into an observation ward for mental cases, both European and Indian. The completion of these three institutions will effect a much needed, and long called for, improvement in the arrangements for the treatment of insanes in Bengal.

2. The daily average population of the asylums during the triennium was 1,080·90 against 1,072·23 in the previous three years; the average number of admissions was 240 as against 200, and the average number of discharges 153 as compared with 125. Judging by these figures there would seem to have been a tendency to depart from the principle that admissions should be restricted to cases in which detention was unavoidable. There is truth in the statement of the Surgeon-General as to the apathy and indifference of the friends and relations of lunatics, and the retention of those who could be looked after outside only renders more difficult provision for the friendless insanes who can only look to the asylums.

3. A satisfactory feature of the period is the continued marked improvement in the health of the asylum population. No disease assumed epidemic form, and there has been a marked decrease in the number of cases and of deaths from both phthisis and dysentery.

4. Generally the management of the asylums has been excellent, and reflects great credit on all the officers concerned. Major Peebles, who for many years held charge of the asylum at Berhampore, has now been transferred to Ranchi to superintend the asylum there. During his service in Bengal he has been of great assistance to Government in all matters connected with the treatment of insanes, and on his departure from the province the Governor in Council desires to place on record his high appreciation of his valuable work.

By order of the Governor in Council,

J. DONALD,
Secy. to the Govt. of Bengal.
